

Habitat Restoration Project 2009

- Cobourg Brook: Cobourg, Ontario -

Cold Springs Riparian Shrub Planting

Habitat Project Lead: *Ontario Federation of Anglers and Hunters (OFAH)*

Habitat Project Funding Lead: *OFAH*

Date Completed: *July 29, 2009*

On July 29th, 2009, volunteers from Fleming College and the Community Stream Stewards participated in a planting event in Cold Springs. A total of 13 volunteers over 26 hours planted 125 shrubs including red osier dogwood, nannyberry, and chokecherry (figures 1, 2 & 3). All of these plants are water loving and are hoping to increase the shading over the stream and consequently decrease water temperatures.
